NARRATIVE FOR DETECTIVE NICHOLAS CUSTADIO

Ref: 26-7014-OF

I, Detective Nicholas Custadio of the Fall River Police Department Major Crimes Division was assigned to a security position at the Holy Ghost Feast in Kennedy Park. Detective Josh Pelletier and I observed the Flock camera located [REDACTED] Facility Security [REDACTED] had been tampered with. The camera was currently facing east into the park facing. It should be noted this camera is typically facing [REDACTED] Facility Security [REDACTED]. Based on its current position it was clear that the device has been tampered with causing its positioning to be ineffective at capturing the roadway. Upon further inspection we observed the wiring that goes from the pole to the camera appears to have been pulled from the device causing the connectors to be broken. At this time it was unclear who damaged the device but investigators believe the perpetrator may have used the parks fence to climb on in order to reach the Flock camera. This matter is currently under investigation.

SUPPLEMENTAL NARRATIVE FOR DETECTIVE NICHOLAS CUSTADIO

Ref: 26-7014-OF

I reviewed the Flock Camera system for the recordings for the damaged camera located Facility Security

Facility Security I noted that the last recording prior to the wires being ripped out causing the camera to be inoperable was on 8/10/26 at 8:21:04 PM. and the first captured recording of the park, which is after the camera was moved by an unknown suspect to face east was 8/3/26 at 10:34 PM. Between these two dates the camera recorded numerous vehicles in the park as well as pedestrians walking and biking. There were also several recordings which captured no apparent movement at all. There are no recordings of anyone attempting to move or damage the camera system.

Investigators checked the surrounding homes and neighborhood in an attempt to locate video surveillance in the area to no avail. It was noted there are no recording security cameras in the immediate area that captured the system being damaged. At this time there are no suspects. I have exhausted all other investigatory means to develop a suspect. At this time this case should be considered closed due to lack of evidence.

NARRATIVE FOR DETECTIVE WILLIAM PAVAO

Ref: 26-7582-0F

I, Detective William Pavao, am currently assigned to the Fall River Police Departments Information and Investigation Technology Unit. I was advised that there were several Flock cameras that were not operational, and had not been for at least several weeks. One of these Flock cameras experiencing an outage was currently located at the intersection of [REDACTED] Facility Security

On 07/27/26 I opened a service ticket for the camera in question. Flock requested that power be checked at the camera prior to a tech responding. I assigned Electrician Alex Vorn to conduct this requested task. Upon his arrival on 08/18/26, he observed the wiring which goes from the power supply box to the camera had been pulled from the camera, and the electrical connector and wiring pigtail from inside the camera was hanging outside of the camera. It was immediately apparent that someone had pulled the wire from the rear of the camera.

That date in which the incident occurred is currently unknown due to the last capture data being reset with Mr. Vorn's repair effort. It was reported there are no video surveillance cameras in the immediate area that could have captured the incident. At this time there are no suspects.

Report submitted this day under the pains and penalties of perjury.

Respectfully submitted,

Detective William Pavao A752

1	FLOCK CAMERA	Destroyed/Damaged/Vandalized
	QUANTITY: 1	VALUE: \$5,000.00
	SERIAL #: NOT AVAIL

	OWNER: FALL RIVER POLICE DEPARTMENT	

NARRATIVE FOR DETECTIVE WILLIAM PAVAO

Ref: 26-7583-0F

I, Detective William Pavao, am currently assigned to the Fall River Police Departments Information and Investigation Technology Unit. I was advised that there were several Flock cameras that were not operational, and had not been for at least several weeks. One of these Flock cameras experiencing an outage was currently located in front of [REDACTED] Facility Security [REDACTED]

On 07/27/26 I opened a service ticket for the camera in question. Flock requested that power be checked at the camera prior to a tech responding. I assigned Electrician Alex Vorn to conduct this requested task. Upon his arrival on 08/18/26, he observed the wiring which goes from the power supply box to the camera had been pulled from the camera, and the wiring was hanging from the camera with bare ends exposed. It was immediately apparent that someone had pulled the wire from the rear of the camera.

That date in which the incident occurred is currently unknown due to the last capture data being reset with Mr. Vorn's repair effort. It was reported there are no video surveillance cameras in the immediate area that could have captured the incident. At this time there are no suspects.

Report submitted this day under the pains and penalties of perjury.

Respectfully submitted,

Detective William Pavao A752
